

# Backend/Frontend Developer

(Angular, Ionic framework, Node.js, and MongoDB)

**Name:** Ankit Maheshwari

**E-mail:** maheshwari.ankit17@gmail.com

**Mobile:** +91 91095 03898

**Portfolio:** [GitHub](#) | [Medium](#) | [LinkedIn](#)

---

## **Profile Summary:**

With 10+ years of experience in the Software Industry. Mostly worked in Javascript related libraries/framework (Angular, Ionic framework, NodeJS, and MongoDB)

I love updating myself with the current tech trend.

I have worked with Startups, mid-sized orgs, and larger Highly Scaled organizations as well. My day-to-day activity involves: communicating with the team, understanding the requirements, figuring out the dependencies, estimating the resources, beginning with the development and ending with the testing. Code reviews of self/others. In the couple every week we plan for releases; mostly I take care of the Android/iOS release process, and deployment of web apps as well in the Dev, UAT, and Production env.

## **Tech Stack:**

- Backend: Node.js, Express.js
- Frontend: Angular, Ionic, HTML5, CSS3, JavaScript (ES6+)
- Mobile: Ionic Mobile App Framework
- Database: MongoDB
- Cloud & Tools: AWS, Git, Postman, Firebase, Socket.io, BullMQ, Service Workers and Web Workers

## **Industry Knowledge**

- Writing Web Services using Node.js Express framework and MongoDB as database.
- Frontend web applications development using Angular, React and Next.js
- Hybrid Mobile Application Development - using Angular, Ionic framework, and React Native.
- Video streaming/processing server using Node.js and FFmpeg for live video streaming (MVP, 2019-2021).
- Various experiments with Computer Vision - Machine Learning - RaspberryPi - TensorFlow | Python, etc (MVP, 2016-2018).
- In the past I used the following technologies: Python, Django, Flask, PHP, Java, Google Cloud Platform (2013-2018).

## **Professional Experience:**

### **1) Employer: Namya IT Solutions LLP, Hyderabad**

Experience: May 2022 – Till date

**Role:** Software Developer III

**Client:** [SPECTRUM](#) ([Charter Communications](#), USA)

#### **Tech Stack:**

**Frontend:** Angular, HTML5, CSS3, JavaScript (ES6+)

**Backend:** Node.js, Express.js

**Database:** MongoDB

**Cloud & Tools:** AWS, Git, Postman, Firebase, Socket.io, BullMQ

**Key Responsibilities:**

- Developed and maintained responsive web applications using Angular, ensuring cross-browser compatibility and optimal performance.
- Built and integrated RESTful APIs using Node.js, handling routing, authentication, and business logic.
- Designed and optimized MongoDB queries and aggregation pipelines to support complex data-driven features.
- Collaborated closely with team members across frontend, backend, and QA to ensure timely delivery and project alignment.
- Contributed to the development of real-time reporting tools, job queues (BullMQ), and Excel export modules with socket-based updates.

**2) CRICCLUBS INDIA PVT LTD, Hyderabad**

(Sep 2020 – April 2022)

**Worked on Product:** [CricClubs](#)

Worked as a Web and Mobile Application Developer, overseeing the release cycle for hundreds of apps on the Play Store and App Store on a regular basis.

Here are the app links:

- **Android:** [CricClubs Apps on Play Store](#)
- **iOS:** [CricClubs Apps on App Store](#)

**Tech Stack:**

**Front End** - Angular, Ionic Framework, React.js, HTML, CSS, JavaScript

**Back End** - Node.js, and MongoDB as database, AWS.

**Role:** Senior Software Engineer

**Key Responsibilities:**

- a) Worked on Hybrid (Android/iOS) Mobile Application development using Angular in Ionic framework.
- b) Worked on web applications using Angular framework.
- c) Worked on rest API implementations using Node.js
- d) Writing MongoDB database scripts/queries to full-fill the functional requirements.
- e) Understanding requirements and implementing new features into existing applications.
- f) Communicating with the team members to understand project requirements and providing updates, reviewing the code.

**3) CodeChintan Technologies, Indore**

(Aug 2016 – May 2020)
