**Subject: Application for Full-Stack Developer Role (Node.js, Angular, MongoDB)**

Dear Hiring Manager,

I am writing to express my interest in the Fullstack Developer position at your organization. With over **10 years of professional experience**, I have developed and scaled enterprise-grade applications using **Angular, Node.js**, and **MongoDB**, along with mobile solutions using **Ionic Framework and Capacitor**.

Throughout my career, I've worked on web and mobile platforms with a strong focus on **clean architecture, scalable APIs, MongoDB performance**, and **real-time communication using Socket.io**. Most recently, I built a robust internal tool for real-time report processing using **BullMQ, WebSockets**, and **Excel exports** — showcasing my ability to own backend logic, frontend UX, and system integration from end to end.

In addition to my technical work, I actively share my learnings through articles on Medium and contribute code samples on GitHub. You can find my public work here:

- **GitHub:** [github.com/AnkitMaheshwariIn](https://github.com/AnkitMaheshwariIn)
- **Medium:** [ankitmaheshwariin.medium.com](https://ankitmaheshwariin.medium.com)
- **LinkedIn:** [linkedin.com/in/ankitmaheshwariin](https://linkedin.com/in/ankitmaheshwariin)

I am passionate about building real-world solutions that impact teams and customers directly. I bring not just coding skills but also **architectural thinking, problem-solving**, and the ability to work **independently and collaboratively** in agile environments.

Thank you for considering my application. I have attached my resume for your review and would welcome the opportunity to discuss how I can contribute to your team.

Warm regards,

**Ankit Maheshwari**
